## Project :-

---

### ➤ Contact Manager

#### Key Features:-

[Code](#)

This project includes secure user authentication with login and logout functionality, along with complete contact management features such as adding, updating, deleting, and viewing contacts. Users can easily manage their contacts through a structured list view with detailed information. All contact data is securely linked to the user's email, ensuring that data cannot be accessed from another account.

### ➤ Weather App

#### Key Features:-

[Code](#)

Developed a weather application using Flutter and OpenWeatherMap API to display real-time weather data, daily forecasts, temperature, location, and detailed weather conditions such as humidity, pressure, and feels-like temperature.

### ➤ Notepad App

#### Key Features:

[Code](#)

Developed a Flutter note-taking app with create, update, delete, favorite, and detailed note-viewing features. Implemented local data storage using Hive for fast performance and offline access.

### ➤ News App

#### Key Features:

[Code](#)

Developed a Flutter news application with category-based browsing, real-time news updates, pull-to-refresh, detailed article viewing, and direct website access. Integrated NewsAPI to fetch and display real-time news data.

### ➤ E-Commerce app

#### Key Features:

[Code](#)

Developed a Flutter e-commerce application with secure authentication, category-based product browsing, product details, cart and checkout functionality, product management, and order history. Integrated a REST API to manage simulated product and user data.

### ➤ Expanse Tracker

#### Key Features:

[Code](#)

Developed a Flutter-based Expense Tracker app to manage daily income and expenses with insert, update, and delete functionality. Implemented a dashboard with charts for visualizing financial data and maintained transaction history using Hive local database. Added secure card number and password storage with password-protected access.

## Communication Skills:

---

- Bangla (Native)
- English (Fluent)

## Experience:

---

Organization : BlackDevs RangPur

Position : Flutter Developer (Intern)

Duration : April 2026 – August 2026

## Responsibilities:

Worked as a Flutter Developer, developing and maintaining cross-platform mobile applications using Flutter and Dart. Responsible for REST API integration, UI/UX implementation, state management with GetX, debugging, performance optimization, and version control using Git & GitHub.
